

Emergency Planning in the Community and the High-containment Laboratories at Fort Detrick

A Community Forum:

Tuesday, June 14, 2011
7 pm

Frederick Municipal Annex 140 W Patrick St Frederick, MD

Sponsored by the Containment Laboratory Community Advisory Committee

Discussion and Q & A with:

Jack Markey, Director of Emergency Preparedness, Frederick County;

Dr. Barbara Brookmyer, Frederick County Health Officer

Representatives from:

Frederick Memorial Hospital; Health Department; Fire and Rescue

We will be talking about communication and emergency response if there is an accident or event at the labs:

- What's the plan and who's in charge?
- Who notifies the public and how? How will people know what to do?
- What kinds of emergencies are being prepared for?
- How are biohazards handled?
- Where would people be treated?

Please come with your questions.

Send us questions before the meeting so we can be better prepared:

CLCAC@cityoffrederick.com

This forum will be televised live on local Channel 99 and will be available for later viewing online on the City of Frederick Website. See: <http://www.cityoffrederick.com> for more information about the CLCAC.
